- Explain the characteristics of IoT. ...
- What are the different components of IoT? ...
- What are the advantages of IoT? ...
- What are the challenges or risks associated with IoT? ...
- What are different types of sensors in IoT? ...
- What are different layers of the IoT protocol stack?
- Define Architecture of IOT?
- Define Manet and its Protocol?
- How ADC and DAC is applicable in IOT?
- Applications of IOT?
- How cloud computing is useful in IOT?
- How Edge computing is useful in IOT?
- How Fog Computing is useful in IOT?
- Define RFID and its pros and cons?
- Differentiate between active and passive tag of IOT?
- Define all Axiom by Tim Berners lee?
- Define all the protocols used in application layer, transport, internet and physical layer?
- Define NFC in IOT?
- Explain all IOT sensors with its pin configuration?
- Define IOT Gateways?
- Define Actuator and its type?
- Differentiate in MQTT and SMQTT?
